

Log of activities related to correcting errors and deficiencies within the church.

Date	Description	Notes
19-October-2019	Initial contact.	Introduced myself to the chairman and let him know that I would be sending him a letter/request regarding issues within the church. I asked for his assurance that he would formally process and respond to the letter. (He agreed.)
31-October-2019	Sent letter/essay.	Sent letter and essay to chairman via certified mail.
17-November-2019	Checked process status.	The chairman confirmed he received my request. I offered assistance with the process, he said he would call me to discuss. (He never called.)
22-December-2019	Checked process status.	The chairman agreed to meet after services were complete. He discussed several high-level generalities, but none of the specifics raised in the essay and did not bring a copy. The discussion was difficult to conduct as we were frequently interrupted by others requesting the chairman's attention. We did not conclude with any level of agreement. I asked when he would provide a formal response, he said he would check with the trustees. (Duration: ~10-15 minutes.)
16-February-2020	Checked process status.	The chairman reported the trustees were satisfied with the nature of the verbal response and correction in December. I was unaware of any correction (lacking his promised formal reply) he claimed the correction concerned my use of the Word instead of the Spirit. Expressing my inability to discern any objective correction, he agreed to contact me soon to set-up a meeting along with one trustee. (Duration: ~5 minutes.)
7-March-2020	Scheduled meeting.	The chairman called to setup a meeting at the church on Wednesday, 11-March-2020 at 6pm.
11-March-2020	Attended meeting.	The chairman invited a trustee and a minister to the meeting (3:1). The minister drove all discussions, prohibited delving into any issue specifics, asked very few questions, asked I recant my request, and asserted that I did not trust in God. They confirmed they would not provide a formal response to my request and would not initiate any actions to correct the issues documented. (Duration: ~2 hours.)
1-April-2020	Sent follow-up letter.	Sent a meeting follow-up letter to the chairman (with delivery tracking) and a copy to each trustee.
1-May-2020	Published blog.	Made personal private internet web log available containing these activities and related article posts.
